Green Tee Apparel

◆ The collection

Green Tee Apparel provides contemporary and performance clothing for the fashionably inclined golfer. Liz Doan and Tiffany Tran struggled to find the perfect balance between style, function and performance when it came to golf apparel. As an alternative, they purchased modern clothing, added their own individual flare, integrated some useful features and Green Tee Apparel was born. Their clothing provides an alternative to traditional golf wear and is not bound by conventional fairway fashion.

◆ What we love

The Swish pleated mini skort is a youthful plaid that is flattering on and off the course. It includes three front pleats with accent metal rivets for a modern appeal.

The Agility halter dress comes in blue with yellow piping, and orange with white piping. This dress is sporty, flirty and perfect for the course

Green Tee Apparel offers a wide range of regular sizes, including a complete petite line.

◆ Golfability

The Swish skort contains 5% spandex which provides easy movement on the golf course. It has a front and back seam pocket that don't take away from its sleek lines, but give you a place to stash a tee, ball marker, and rest a glove.

The Agility dress is made of amazing breathable fabric that repels liquids, resists wrinkles, dries fast, provides enhanced circulation and is antimicrobial. This A-line dress has a great swing to it and two seam pockets on the sides.

The dresses do not currently have shorts underneath, and are long enough that some gals may not find them necessary. Green Tees did not want to restrict movement with an attached short. If you want extra coverage, they recommend an athletic short from Lulu Lemon.

Liz Doan

Tiffany Tran

It all started on a trip to Las Vegas. Tiffany Tran introduced her good friend, Liz Doan, to golf at the Callaway Golf Center off the strip, and Liz fell in love immediately.

Within 24 hours of first holding a club, Liz headed to a sports superstore and loaded up on golfing necessities: a new set of clubs, a golf bag, a pair of shoes, and a series of golf lessons. But something was missing. Liz asked her friend where she could find cute golf clothes. "When you find it, let me know," Tiffany told her. So Liz and Tiffany put their brains together and the idea of Green Tee Apparel was born.

Both Liz and Tiffany have overcome great hurdles in their lives, so starting their own business was not an intimidating venture. Liz has dermatomyositis which is a rare disorder causing physical symptoms similar to rheumatoid arthritis. Liz continues to struggle with the ongoing challenges of this disorder, but she finds golf to be a lower-impact sport that she can enjoy and play well.

Tiffany was diagnosed with aggressive breast

cancer at the age of 28. For many months this tough 4'11" athlete fought for her life, and things she enjoyed like golf and cruising on her motorcycle had to be placed on the back burner. She is now in remission, back on the course, and shooting under 100. Tiffany hopes to coordinate functions with Green Tee Apparel and cancer organizations to increase awareness and work towards a cure.

Tiffany and Liz are as passionate about golf as they are about fashion. Golf allowed them to pursue that passion when their bodies couldn't move as fast as they wanted them too. Their energy is felt throughout the Green Tees Apparel line.

Liz and Tiffany love to play with colors and believe in outfits that are form fitting without being too tight. Tiffany wanted to bring this alternative clothing to golfers of all sizes – thus the inspiration for their petite line. Their innovative designs integrate athletic quality, functionality, and above all ... style.
